Create a Space that is Uniquely Yours!

When I moved to my little studio apartment, I wanted to create a home that truly showed my personality. Luckily, I found a sewing machine that could help me turn my dreams into reality! My JADE™ 20 sewing machine helped me to turn my ideas into colorful creations. The Sewing Guide shows me how to set the machine for any type of sewing – great for a learner like me. It also has a large sewing space, perfect for sewing larger projects. With over 80 stitches, I can make anything look unique.

I DID IT AND SO CAN YOU!

My JADE™ 20 sewing machine is perfect for a beginning sewer. A Sewing Guide is conveniently located in the lid. I just find the fabric type and the sewing technique and it will tell me the perfect stitch and settings to achieve the best results. The Sewing Guide gives me the confidence to sew on any type of fabric.

SPREADING MY WINGS

Being a sewer is amazing! I can make my ideas come to life with fabrics, colors and patterns that make my space reflect my personality. Different stitches and techniques require different presser feet. My JADE™ 20 comes with 7 different presser feet that cover all my basic needs and more. A zipper, a buttonhole or a hem are all easy to accomplish.

HUSQVARNA VIKING® offers a large selection of optional presser feet and accessories. I can expand my sewing knowledge and skills to achieve whatever my heart desires!

TURNING ORDINARY INTO BEAUTIFUL

The 82 utility and decorative stitches help you customize almost anything. Use them to add a unique flair to clothing, towels, pillows, and so much more.

The start/stop function guarantees a constant sewing speed. This is important when sewing decorative stitches which require a consistent speed. The speed can be adjusted to your comfort level.

MAKING MY SPACE MY HOME

The 200mm (8 inches) of sewing space offers plenty of room to sew large projects, like quilts, home decor and garments. I loved having the space when I added a pom-pom fringe to a curtain and created a cupcake wall hanging. These were two things that helped me turn this tiny apartment into a cute home.

Optional extension table available
