One-head, fifteen-needle  
industrial embroidery machine

Perfect for plain embroidery, embroidery on caps and ready garments. Open space under the hoop, makes embroidery on big elements easy, without creases on the embroidered material. Cylindrical arm is useful for embroidering on ready products and a big variety of standard hoops helps to optimize work. During usage of one of hoops, another one can be prepared for a new job. Sturdy base's wheels allow easy transport of the machine.
