

Electronic buttonhole machine with integrated energy-saving AC Servo motor and stepping motors. Machine equipped with the safety device which prevents fabric from cutting in case of thread breaking. Equipped with touch control panel and LED lamp for lighting of working field.

Technical specification:

- for sewing light and medium fabrics
- serial clamps size 29 x 5 mm and 40 x 6 mm
- automatic functions: foot lifter, thread trimming, fabric feeding, sewing speed regulation, cloth cutting mechanism (multi-cut system - automatic adjustment of the buttonhole cut-out to the buttonhole length, without changing the knife).
- 30 buttonhole patterns in standard (including 4 bar tacking programs)
- possibility of self designing of buttonholes (up to 99 programs)
- active thread tension mechanism
- foot presser lift up to 14 mm
- maximum sewing speed 3.600 s.p.m.
- integrated, energy-saving AC Servo motor and stepping motors
- voltage 220-240V
- energy-saving LED lamp
- needles system 135x5

PREMIUM EX

2 YEARS WARRANTY

TABLE TOP TO PREMIUM

The highest quality table top made of moisture resistant birch plywood (30 layer) which perfectly damps vibrations. PREMIUM table top surface is coated with a special laminate resistant to impact, abrasion and splinters. Sides protected by ABS slats.

STAND HD PREMIUM SILVER

Steel, stable and durable stand for heavy machines with height adjustment (69-83 cm) and oilier holder.

MORE POWER. LESS COSTS.

Built-in energy-saving AC Servo motor.

Energy-saving AC Servo motors work only when the machine is sewing. They maintain full power and save up to 70% energy (compared to electronic and standard clutch motors).
